Product description:

Basketball in synthetic leather, Mikasa BQ1000 FIBA Approved.

Ball made of **synthetic leather** , with a high grip finish that can be used in **competitions and for professional training**.

The **Mikasa BQ1000** is an **International Basketball Federation (FIBA)** approved basketball perfect for intense, professional play.

The **high quality leather** used has a particular finish that gives it a high grip, **making it easier to grip** even during fast play, characteristic of the more advanced categories.
