

Bilaminate basketball scoreboard

Product features:

Material: Bilaminate

Finish: Powder-coated

Product description:

Backboard for basketball facility in bilaminate.

The scoreboard is made entirely of bilaminate, 16 mm thick , **solid and resistant even when used outdoors.**

The scoreboard is produced in the size of 180x120 cm, or in the **official size** established by the current **FIBA regulation, of 180x105 cm.**

The bilaminate basketball backboard is supplied **complete with the relative squaring** , carried out by painting. There is also a metal finishing frame.

The rims, which must be purchased separately, and the backboard support structure are not included.

The scoreboard is supplied without holes, which must be drilled during the installation phase to avoid any inaccuracies.
