Product description:

Semi-rigid and padded medical bag with modular internal compartments.

Made of polyester, this medical bag is an **indispensable tool for every sports club.**

The bag is equipped with **multiple pockets and internal dividers** . The latter are **modular** thanks to the Velcro sewn on the lining, which allows them to be moved according to needs.

Perfect for carrying with the handy strap included, this bag finds its greatest application on sports fields, where it can accommodate all **the first aid equipment.**

From **dry ice to spray ice**, through **plasters, disinfectants**, and everything necessary to **provide immediate assistance to athletes.**
