Product description:

The Gradim GL327 swing is made on a double-lamellar impregnated pine wood structure, section cm. 9×9 . The horizontal wooden beam is also made of laminated pine but with a section of cm. 9×15 .

The swing has a rubber seat with an internal pre-pressed steel core, supported by close-knit galvanized chains. The movement takes place on self-lubricating Teflon bushings. It also has a climbing net with a lateral oblique ladder with non-slip galvanized metal rungs and two safety bars.

The structure is designed for **fixing to the ground using metal brackets** to be cemented into the foundation.

Characteristics:

Drop height (HIC): cm. 198

TUV approved for "public use" according to EN 1176:2017 standards
