

## **Product features:**

Material: Eraser

Diameter:

Casting Ball Weight: 400 gr

## **Product description:**

400 gram soft rubber shot put ball

Designed for **indoor circuits** and **for training**, this **400 gram** throwing ball is made of **soft rubber**, **which improves grip**.

The shot put (also improperly called shot put because it is considered within the throwing disciplines) is both a male and female athletics specialty, in which the athlete tries to throw a metal sphere as far as possible.

With a diameter of 95 mm, it is a perfect tool for training and approaching the discipline.
