Product features:

Product weight:
Certifications: UNI-EN 9554:1989
Warranty: 2 years
Dimensions:
Readability Corner:
Programmable team names: NO
Game time:
Team Score:
Period:
Time Out:
Acoustic signal: 120 db - 1 meter

Product description:

FC54H20 multisport electronic scoreboard

The FC54H20 **indoor scoreboard** can be used for multiple **sports** including **basketball** , **volleyball** , **table tennis**, **handball**, **five-a-side football** and many others.

With a **size of 140x108 cm** , it is suitable for installation in **school gyms and small sports halls** .

The **readability of the information** remains high, the scoreboard is in fact equipped with **high definition LEDs** and with a height of 20 cm, the stopwatch and the result remain visible up to a **distance of 90 metres**, while the other information has a height of 15 cm and are visible up to a **distance of 50 meters**, all have a **visibility angle of 150°**.

The electronic scoreboard, in this version, has a particular front panel in Plexiglass which does not require protection, as it is **resistant to ball hits** as per **DIN18032-3 and UNI 9554:1989 regulations**.

The scoreboard allows you to **view the main information during the competition** , including the score, timeouts for each team and sets won or fouls committed by team. It also allows you to **view the stopwatch** , the period and **ball possession or service**. (via 1 light point for each team).

To simplify installation , **wall brackets and anchors are included**.

A **great advantage** of this **scoreboard** is the possibility of being **controlled remotely** via the **touchscreen console** (not included) completely **wirelessly**, thus saving on installation costs.
