

Electronic multisport scoreboard FC60H25N12B2 FIBA approved

Product features:

Product weight:
Certifications: FIBA Level 2 homologation
Warranty: 2 years
Dimensions:
Readability Corner:
Programmable team names: SI
Game time:
Team Score:
Period:
Time Out:
Acoustic signal: 120 db - 1 meter

Product description:

FC60H25N12B2 multisport electronic scoreboard

The FC60H25N12B2 **indoor scoreboard** is **FIBA Level 2 approved** , making it suitable for the **sports of Basketball , Volleyball , Tennis , Handball, 5-a-side football** and many others.

With **dimensions of 257x200 cm** , it is particularly suitable for **school gyms and medium-sized sports halls** .

the information shown on the scoreboard is clearly visible thanks to the **high definition LEDs** which, with a height of 25 cm for the **stopwatch and the score**, remain visible up to a **distance of 110 metres**, the other **information** has a height of 20 cm and is **visible up to at 90 meters**, all with a **visibility angle of 150°**.

It has 2 built-in side panels which show up to 12 **player shirt numbers** (from 0-99 which can be modified via the appropriate console) for each **team**, for each **number** there are **5 bright dots** (the last one in red) to report **fouls or penalty**

On the **scoreboard**, of this particular version, it is possible to customize (via the console) the **name of the teams** participating in the competition, **the information** is shown at the top of the **scoreboard** , they have a maximum of 6 characters per team and have a height of 16 cm

The **electronic scoreboard** is equipped with a particular front panel in Plexiglass and does not require protection, as it is **resistant to ball hits** as per **DIN18032-3 and UNI 9554:1989 regulations**.

The scoreboard allows you to **view the main information during the competition**, including the score, timeouts

for each team and sets won or fouls committed by team. It also allows you to **view the stopwatch** , the period and **ball possession or service**. (via 1 light point for each team).

Wall brackets and plugs are included in the basic equipment to simplify installation.

One of **the advantages** of this scoreboard is the possibility **of controlling it remotely** via the totally wireless **touchscreen console** (not included) , thus significantly saving on installation costs.
