

Elliptical Electromagnetic Programmable + Receiver Cardio Wireless Jk Fitness 417

Product features:

Braking System: Elettromagnetico

They fly: 14 Kg

Maximum User Capacity: 120 Kg

Console: Display LCD 115 x 65 mm
retroilluminato

Heart Rate Detection:

Dimensions Open: 1635 x 740 x 1355 mm

Packaging dimensions: 1675 x 740 x 320 mm

Product weight: 55 kg

Weight of the packaged product: 64 kg

Certifications: CE-ROHS-EN957

Warranty:

Effort adjustment:

Product description:

The Jk 417 elliptical has 16 electronically managed resistance levels and has been designed to offer maximum comfort during training.

It has a flywheel weighing 14 kg, thanks to the sliding on the pedal tracks, it is able to guarantee a very fluid and silent movement, simulating cross-country skiing.

It has a backlit color LCD monitor from which you can view time / speed / distance / calories / heart rate / rpm / program diagram / effort level / watts, detected via manual Hand Pulse sensors or via heart rate monitor, not included, receiver integrated wireless.

Equipped with hand pulse system + integrated wireless heart rate monitor receiver.

The JK 417 has 6 preset 4 HRC programs in its memory: HRC1 up to 55% of the maximum theoretical frequency, HRC2 up to 75% of the ftm, HRC3 up to 90% of the ftm, THR frequency settable by the user / recovery test (test on the post-exertion recovery) / body fat test / BMR test / BMI test.

The handlebar is ergonomic with multiple grips + resistance adjustment buttons.

The equipment is completed by a bottle cage and tablet/smartphone support.

It can support a maximum user weight of 120 kg .
